## **NHS Scam**

Text from a sender **claiming to be the NHS**. The SMS instructs the reader they're eligible for a COVID pass to confirm that they're fully vaccinated

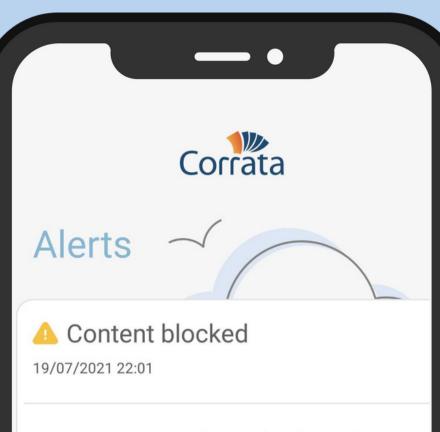

The link takes the employee to a replica site to obtain their details

The fake site requests the employees online banking information for "verification"

Corrata protects you from cyber threats by preventing Internet connections to content that has been identified as a potential security risk. In some cases this may prevent an application from working or a website from loading.

Internet traffic to this app/website has been blocked; https.//nhs.ukl.passform.digital

With Corrata, access to the phishing link is blocked immediately.

Our ZERO DAY threat system can identify phishing and fraudulent links immediately and protect your data
